Big Mix of Attractions

88 acres of country park gives plenty of room for your school group to run free and let off some steam.

With its big mix of features and attractions, Robin Hill makes a great day out and is excellent value for money.

Rides

A great selection of rides, a 4D cinema and lots of outdoor activities including a regular falconry display, climbing apparatus, treetop and forest walks and much more.

Why not add a ride on the giant hillside toboggan run?

Site of Combley Roman Villa

The park is also home to Combley Roman Villa - a large farmstead with bathhouse, aisled building and courtyard.

First excavated in 1910 and then again in 1968-76 but now re-buried to preserve the mosaics, an interpretation barn forms part of Robin Hill Country Park's attractions.

The barn has a short rolling video presentation showing the last excavations and reconstructions of

how the building might have originally looked, along with lots of artefacts found at the site.

Jungle Heights

Skip, hop and bounce through dual net bridges suspended high above the ground before squirreling through a six-storey tower to climb high into the treetops!

Dive into the floating maze, climb tree-to-tree through tunnels and being along rope bridges to a giant ten metre net trampoline - an exhilarating experience like no other!

No wonder many schools request Robin Hill for their arrival afternoon or departure morning!
