History with R.E. Crossover

Contexts & Connections: Churches Through Time!

Contextual Summary

This is a crossover History and R.E. resource that enables students to discover the many beautiful churches on the Island, to understand their most significant and interesting features, and to comprehend how these relate to cultural, economic and social history. Students will gain an historical perspective by understanding the local, regional, national and international influences on these Island communities and their places of worship.

The resources also engage with the changing architecture and highlight some of the most interesting murals, artworks, and windows that exist along this trail. The resource content is designed to link to the History curriculum for students in key stage 2, but would also be of interest for other key stage students studying related topics.

Task Implementation

Each church on the trail has an accompanying 2-page resource.

The first page details some information on notable features, the origins of the church, and its history during the Victorian period and after.

The second page has a tick list with pictures of interesting features to look for, inside and out. The Word Bank accompanying this document may also prove useful.

Some villages and towns on the trail have more than one church, so students can compare them, and understand why a newer, larger church was often needed to accommodate a growing population through the centuries.

Ability Levels

There is one version of each resource for mixed ability students in key stage 2. Lower ability students could be paired with a student of higher ability, or could be tasked with completing page 2 of the resource only, skipping the reading.

Key skills practised in this unit:

- ▶ develop a chronologically secure knowledge and understanding of local and British history
- ▶ note connections, contrasts and trends over time
- ▶ understand historical concepts such as continuity and change, cause and consequence, similarity, difference and significance.

Relationship to Curriculum

The above skills are required to be taught and practised as per the National Curriculum / Curriculum for Excellence, for key stage 2 History.
