

## Classification Challenge!

### Learn to Classify Living Things!

#### Student Introduction

- ▶ All living things can be classified into 1 of 5 different kingdoms, which are huge groups.
- ▶ All animals are in one kingdom called Kingdom *Animalia* and all plants are in another kingdom called Kingdom *Plantae*.

#### TASK

- ✓ Today you will be looking at just these two kingdoms.
- ✓ As you walk around the country park you should see some animals and plants.
- ✓ Can you **classify** them correctly? Some have been done for you, or hints provided.

### PLANTS WITH SEEDS

### SEEDLESS PLANTS

#### FLOWERING PLANTS

#### NO FLOWERS

Fir tree

#### NO TRUE ROOTS

Moss

#### ROOTS, STEMS AND LEAVES

- ✓ As you walk around the park classify the plants that you see, some maybe quite tricky. For example ferns don't produce seeds but you may find what looks like tiny seeds on the back of the leaves. These are spores.

Can you organise animals you see into different groups? Some have been done for you to get you started.

### INSECTS

### FISH

- ✓ As you walk around you will also see information boards telling you about some of the species that can be found here at Robin Hill Country Park.
- ✓ Place them into the correct boxes!
